

**Liquid Crystallizers
Nuclear Application**

**100 US GPM Recovery System including clarifier, UF
membrane, dual carbon filters, water softeners & RO System**

Batch Treatment System 2,000 US Gallon

**1400 Series Conventional Treatment
250 US GPM**

**Conventional Wastewater Treatment
with DAF 100 US GPM**

Filter Press with Sludge Tower

Mixed Bed DI System 350 US GPM

**Ground Water Purification
Oil Sands**

**Batch Treatment System
Aerospace**

MEMKON Microfiltration System

**Conventional Batch Treatment System
2000 Gallons/Batch**

**ROKON Reverse Osmosis System
5 US GPM**

REKON 10 US GPM Wastewater Recovery

REKON Ion Exchange back view

**Wastewater Recovery ROKON c/w
Fluoride Treatment**

REKON Ion Exchange 20 US GPM

Batch Treatment System 2,000 US Gallon

CONREC Sludge Dryer 50 cubic foot

**Twin Microfiltration Systems 180 US GPM
Mercury Removal for Mining Industry**

Dual Train Microfiltration System

**Microfiltration System 60 GPM
Aerospace**

MEMKON Microfiltration System

**Wastewater Recovery
Microfiltration and Reverse Osmosis**

**MEMKON Microfiltration System
200 GPM**

ROKON Reverse Osmosis System
125 US GPM

ROKON Reverse Osmosis
Wastewater Recovery System

Conventional Treatment 1300 Series
c/w Filter Press

ROKON Reverse Osmosis System
Twin 75 US GPM

Brackish Water Purification System 120 US GPM
Oil Industry

ROKON Reverse Osmosis
125 US GPM

Softeners 200 US GPM

**ROKON Reverse Osmosis System
with Pre-Treatment**

**ROKON Reverse Osmosis Purification
Hydroponic Industry**

DAF Clarifier 200 US GPM

**Twin Microfiltration Systems 180 US GPM
Mercury Removal for Mining Industry**

Conventional Wastewater Treatment System
