## Service and Preventative Maintenance Program

### Experienced Qualified Technicians

- ✓ Available for dedicated service support troubleshooting, repairs, and preventative maintenance to minimize downtime
- ✓ Prevent performance issues by detecting equipment wear sooner
- ✓ Capable of making chemical protocol adjustments to treat the current waste profiles
- ✓ Assess system performance to ensure operation to design specifications
- ✓ Perform instrumentation calibration
- ✓ Access to remote technical support

### Comprehensive Parts Availability

- ✓ Access to a full range of genuine replacement parts to ensure optimal equipment performance and longevity

Each of these system's components should be routinely inspected and tested for optimal operation and performance.

#### 1400 Series

- Mixers
- Chemistry Tanks
- Pumps
- Neutralization Tanks
- Holding Tanks
- Instrumentation
- Filter Press

#### REKON

- Automated Valves
- Chemistry Tanks
- Pumps
- Holding Tanks
- Resins
- Prefilters
- Carbon

#### MEMKON

- Prefilter
- Pumps
- Neutralization Tanks
- Holding Tanks
- Automated Valves
- Membranes
- Instrumentation

#### ROKON

- Prefilters
- Valves
- Pumps
- Membranes
- Holding Tanks
- Flow Verification
- Conductivity Verification
- Instrumentation

Whether you need replacement parts or a one-time service, we've got you covered!

For routine, detailed system analysis, sign up for a Service and Preventative Maintenance Program.
